In making your selections for the 9th batch the orders in force in different provinces with regard to communal representation should be followed as far as practicable. In this connection your special attention is invited to this Department Memo No.TNC.1100, dt.4-9-42. The Government of India are specially anxious that one Scheduled caste candidate should be selected from each of the following provinces - Bombay, Bengal, Madras, United Provinces, Punjab, Bihar and Central Provinces - and the Chairmen concerned are requested to give this point their special attention.

The condition that they should give their nominees on their return from the U.K. an increase in pay of at least 12½% will not in future be enforced but the Firms will be required to pay returned trainees their market value to be fixed in consultation with the Tribunals concerned.

4. In addition to the usual quota of 50 trainees, it is proposed to send a number of candidates for training as Aero Mechanics and it is requested that as many suitable candidates as possible i.e., men with experience of aircraft work of automobile engineering may be selected for such training.

The usual outfit will be supplied to all trainees at Bombay.

Now he has been informed by the Secretary, National Service Labour Tribunal, Madras that he has not been selected for the above training. Further the Secretary has stated that the chance will be given to him if there are defections in the trainees selected already. The Resident has informed Mr.H.N.Belgaumkar that a Pass Port No.6328 has been forwarded to the --- Chairman, National Service Labour Tribunal.

Under the above circumstances we request you to please get in touch with the Chairman, National Service Labour -- Tribunal, Madras and see that our employee Mr.Belgaumkar is selected for the above training.

CONFIDENTIAL.

No.TRC-1100
Dated Simla, the 4th November 1943.

Memorandum.

The tenth batch of trainees under the Bevin Training Scheme is likely to leave for the United Kingdom early in January 1944. Arrangements should now be made for the final selection of candidates for inclusion in this batch. The distribution of vacancies among st provinces will be as shown in the margin*. The vacancies allotted to the N.W.F.P. and Orissa should be filled from persons domiciled in these provinces by the Punjab and Bihar N.S.L.Ts. respectively and shown separately for these provinces.

2. As His Majesty's Government are anxious that a proportion of subjects of Indian States should be included in each batch, the Residents in Indian States are being requested by the Secretary to His Excellency the Crown Representative to forward to the N.S.L.Ts. concerned the names of suitable candidates from Indian States, and these suggestions should be given the fullest consideration.

3. In making your selections for the 10th batch the orders in force in different provinces with regard to communal representation should be followed as far as practicable. The Govt. of India are specially anxious that candidates belonging to Scheduled castes should be adequately represented. In this connection your special attention is invited to the Resolution of the Government of India in the Home Department No.23/5/42-Ests(S) dated 11-8-43 (copy enclosed) specifying the ratio reserved for the Scheduled Castes in public services. The same ratio will be applied to the final composition of each batch of Bevin trainees and you are therefore requested to recommend as many suitable candidates belonging to the Scheduled Castes as possible. It should be noted that no candidate should be regarded as a member of a Scheduled Caste unless he belongs to one of those castes specified in the Schedule to the Government of India (Scheduled Castes) Order, 1936, even though he may come under the term 'Depressed Classes'. Your attention is also invited to this Dept. Memo.No.1100, dated 4-9-42.

4. Firms engaged on work of national importance should be invited to nominate selected employees for training in accordance with this Department Memo.No.TRC 1130, dated 25-2-1943, as modified by Memo.No.TRC-1130, dated 7-7-1943.

5. In addition to the usual quota of 50 trainees it is proposed to send twenty five candidates for training as Aircraft Mechanics and it is requested that as many suitable candidates as possible i.e. men with experience of aricraft work or automobile engineering may be selected for such training.

6. It has been decided that the trainees required to be trained as machinists will be given in future only specialised training on grinders, millers or centre lathes or tool setting on capstan and other automatic machines. It is therefore necessary that in recommending candidates for training as machinists you should specify what previous experience they have had and in what line they should specialise.

7. You are now requested to recommend upto three times the number of candidates allotted to your province. Your selections will be subject to the approval of this Deptt. and should be submitted in order of merit in the usual form not later than the 6th December 1943. It is not necessary to submit a separate list for candidates recommended for training as Aircraft Mechanics. They should be included in the general list in their order of merit.

8. In selecting candidates it should be seen that :-

(1) only men who have had a minimum of three years' practical engineering experience are selected; if candidates with this qualification are not forthcoming the names together

P.T.O

together with applications of all persons having engineering experience of less than three years, but who are otherwise considered suitable for training in England, may be forwarded to this Department;

(2) candidates are not too young and inexperienced to be benefited by the training in England and are keenly interested in engineering and anxious to pursue the practical side of the work;

(3) selected candidates have sufficient knowledge of English to understand and make themselves understood;

(4) no selected candidate has a history of tuberculosis; and

(5) no candidate is included who does not wish to do manual work;

No electricians are required at present.

9. The outfit will be supplied to all trainees at Bombay as usual.

2. As His Majesty's Government are anxious that a proportion of subjects of Indian States should be included in each batch, the Residents in Indian States are being requested by the Secretary to His Excellency the Crown Representative to forward to the N.S.L.T's concerned the names of suitable candidates from Indian States, and these suggestions should be given the fullest consideration.

3. In making your selections for the 11th batch, the orders in force in different Provinces with regard to communal representation should be followed as far as practicable. The Govt. of India are particularly anxious that candidates belonging to the Scheduled Castes should be adequately represented. In this connection your special attention is invited to the Resolution of the Government of India in the Home Department No.23/5/42-Ests(S) dated 11-8-1943, (copy already supplied to you) specifying the ratio reserved for the Scheduled Castes in public services. The same ratio will be applied to the final composition of each batch of Bevin trainees and you are therefore requested to recommend as many suitable candidates belonging to the Scheduled Castes as possible. It should be noted that no candidate should be regarded as a member of a Scheduled Caste unless he belongs to one of the castes specified in the Schedule to the Govt. of India (Scheduled Castes) Order, 1936 , even though he may come under the Term 'Depressed Classes'. Your attention is also invited to this Department Memo.No.1100, dated 4-9-1942.

4. Firms engaged on work of national importance should be invited to nominate selected employees for training in accordance with this Department Memo.No.TRC.1100, dated 23-2-1943, as modified by Memo No.TRC-1150, dated 7-7-1943.

5. In addition to the usual quota of 50 trainees, it is proposed to send twenty five candidates for training as aircraft Mechanics and it is requested that as many suitable candidates as possible i.e. men with experience of aircraft work or automobile engineering may be selected for such training. It is also proposed to send in addition eleven candidates nominated by Ship-Repair firms for training as Changehands and you may recommend suitable candidates in consultation with the D.G.S.R. for such training.

6. It has been decided that the trainees required to be trained as mechanists should be given in future specialised training only on grinders, millers or centre lathes or tool-setting on capstan and other automatic machines. It is therefore necessary that in recommending candidates for training as machinists you should specify what previous experience they have had and in what line they should specialise.

7. You are now requested to recommend upto three times the number of candidates allotted to your province. Your selections will be subject to the approval of this Deptt. and should be submitted in the order of merit in the usual form not later than the 31st March 1944. It is not necessary to

No.TRC-II-1100. Dated Simla, the 5th June, 1944.

MEMORANDUM.

Please refer to para.3 of the Department Memo.No.TRC-1100 dated the 6th March 1944 regarding the selection of the Eleventh Batch of Bevin Trainees.

2. The attention of the Chairmen of Tribunals has been called on several occasions in the past to the importance which the Government of India attach to the adequate representation of all communities in the batches of Bevin Trainees. For the 11th batch only four candidates belonging to the Scheduled Castes were - - - recommended of whom one was found medically unfit reducing the number of those finally selected to only 3 out of a batch of 78 men. The Government of India consider that special effort must be made to secure sufficient representation of all communities, and in particular the Scheduled Castes in future batches.

3. The Resolution of the Government of India in the Home Department No.23/5/43/Est.(S), dated 11th August 1943, a copy of which has already been supplied to all Chairmen, states that although the Scheduled Castes would be entitled to 12.75% of the total number of unreserved vacancies on the basis of the porportion which their population bears to the other communities entitled to a share in the present unreserved vacancies, it has been decided that for the present it will be sufficient to reserve a somewhat smaller percentage namely 8 1/3, and this is the percentage at which each Tribunal should aim.

4. It is requested that all Chairmen of Tribunals should immediately conduct a preliminary exploration of the field to find out how many suitable candidates of the Scheduled Castes are available in their areas (including the Indian States) and report the result to this Department by the end of July 1944. It will then be possible to see if the numbers are adequate according to the percentage mentioned in the Home Department Resolution,

and

and to make good deficiencies in particular provinces by additional selection from other provinces where more candidates of the scheduled Castes are available.

5. The scope of the inquiry should also include men who have not completed the necessary three years' practical workshop experience but will complete it within the next 12 months and who are otherwise suitable for selection. The number of such men should be stated separately together with the approximate date by which the required practical workshop experience will have been gained.

6. A suitable non-official belonging to the Scheduled Castes should be associated with the Tribunal at the time of making these exploratory inquiries, and the assistance of the gentlemen mentioned in paragraph IX of Directive No.23, dated the 15th February 1944 may also be sought.
